

Substance Use Recovery and Workplace Safety Program Informational Paper

Prepared by: Critical Ops, LLC

SUBSTANCE USE AND WORKPLACE SAFETY PROGRAM

Presented by Critical Ops, LLC

DESCRIPTION

To provide information regarding the Substance Use Recovery and Workplace Safety Program (SURWSP) Supervisory Training capability and the benefits for Ohio businesses.

FACTS

- Substance use and recovery touches the lives of all Ohio employers. Knowing how to manage these issues is essential to lowering risks and improving outcomes for rehabilitation.
- Participants receive one hour of digital instruction from a licensed professional in mental health, psychology, or drug and alcohol counseling, followed by one hour of in-depth discussion.
- This training is open to all supervisors and managers and is **100% reimbursed** by the Bureau of Workers' Compensation.
- Our trainings are virtual, meeting the needs of social distancing requirements and offered multiple times per month to best accommodate the needs of your workforce.
- Fulfills requirements of the Drug Free Safety Program and can be used toward additional discounts from the BWC.

BENEFITS

- SURWSP walks you through difficult conversations on sensitive matters to give you the tools to support your workforce and lower the risk of substance use related losses.
- The training is available up to four times a year and will also be offered to employees to meet the Drug Free Safety Program's annual training requirements.
- Through this program, the return on investments your company has made in the Drug Free Safety Program can be maximized at no cost to your organization.
