

GETTING TO... MADE IN AMERICA!

CIM2025

3rd Annual

**CRITICAL INFRASTRUCTURE
MODERNIZATION (CIM)
CONFERENCE**

Presented by Critical Ops

GETTING TO... MADE IN AMERICA!

This year, we are focused on getting to an American-made future while spotlighting the latest in UAS technology from around the globe.

- Experience the latest in AI/ML predictive analytics, supply chain management, and more!
- Engage with decision-makers from all 16 critical infrastructure sectors to uncover new business partnerships.
- Watch live demonstrations of sensor and payload technologies with immediate, real-world business applications.
- Gain a competitive edge with insights into market demand and where to position your business to capitalize on future opportunities in American manufacturing.
